Our book selection this month is *The Immortal Life of Henrietta Lacks*, by Rebecca Skloot. The book documents the story of how scientists took cells from an unsuspecting descendant of freed slaves and created a human cell line that has been kept alive indefinitely, enabling discoveries in such areas as cancer research, in vitro fertilization, and gene mapping. Pick up a copy of the book at the library, read, and join the group for discussion.

Troubled by the living? Unhappy with eternity? Join us for an interactive showing of the original Beetlejuice. We will have themed snacks. Come dressed up as your favorite character if you wish. Just don't say it three times!
